4. Php bin/magento setup:static-content:deploy -f

Install Manually :

1. Download Extension from the [Here](#)
2. Add zip file in app/code folder and extract it and run below commands
3. Php bin/magento setup:upgrade
4. Php bin/magento setup:di:compile
5. Php bin/magento setup:static-content:deploy -f

👉 How Contact US works?

- ❖ When you submit contact us form then the data will be not shown anywhere in admin grid. So the contact us module provides data of contact us which customer is trying to contact you.
- ❖ Also you can edit and add the new contact inquiry from the backend. Click on Add New Button
- ❖ Customers >> Manage Contactus

The screenshot displays the Magento Admin dashboard. On the left, the 'Customers' sidebar menu is open, showing options like 'Deleted Customer Account History', 'All Customers', 'Now Online', 'Login as Customer Log', 'Manage Contactus' (highlighted with a red box), 'Customer Groups', and 'Request Price'. The main content area shows a summary of business performance with a disabled chart and a table of metrics: Revenue (\$0.00), Tax (\$0.00), Shipping (\$0.00), and Quantity (0). Below this, there are tabs for 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers'. A red envelope icon is overlaid on the bottom of the screenshot, indicating the contact us module.
